Sales Accreditation

One Identity - Identity Governance & Administration - Sales Accreditation

In this course we introduce the student to Identity Governance & Administration and Identity Manager. The course provides an overview of the core features, positioning of Identity Manager, competitors and competitive advantages.

Presales track

Remote | Self-paced, Boot Camp | Presales accreditation

Presales Accreditation

One Identity - Identity Governance & Administration - PreSales Accreditation - Self-paced

This accreditation covers the Identity Governance and Administration category of One Identity solutions. The course consists of a self-paced WBT module followed by a short assessment test.

Presales Accreditation

One Identity - Identity Governance & Administration - PreSales Accreditation - Instructor-led

This accreditation covers the Identity Governance and Administration category of One Identity solutions. Students complete the training by attending a Boot Camp and then completing a short assessment test.

Implementation track

Remote | Instructor-led | Implementation Certification

Services Certification

One Identity - Identity Manager - Technical Specialist

This is the first step in the implementation certification process. This course consists of an instructor-led training module followed by an assessment test. You must attend the ILT module prior to attempting the assessment test.

Services Certification

One Identity - Identity Manager - Implementation Professional

In this second step of the implementation certification process, you submit a field experience report to our PSO team who then evaluates it to ensure your field experience meets the One Identity standard.
